FAQ

1. Who is eligible to apply as Principal Investigator (PI)?

By the term “working” we mean any professional employee for research purposes by the research institute of origin. Therefore, PhDs, Post-docs and independent contractors are not eligible as PIs.

In case of researchers employee by foreign research institutes, we suggest to attach a copy of the actual contract to the *Curriculum* form, in order to allow the Foundation to evaluate the eligibility as PI of the project.

2. Is there a deadline for the start of the granted projects?

The Foundation will give priority to the most feasible projects with a starting date before September 2020.
